Central Campus

Overview

Students looking to shift their careers into high gear should look no further than the General Motors (GM) Automotive Service Education Program (ASEP) at San Jacinto College. Cars and trucks are much more complex than they used to be, increasingly relying on complicated computer systems and electronics for operation. With GM being the world's largest automotive manufacturer, students have access to the latest equipment and technology. At San Jacinto College, students receive the right training to excel in the ever-changing and always exciting field of automotive technology. As students learn about and work with cars from the world's largest automotive manufacturer, they will have access to the latest equipment and technology.

The GM Automotive Service Education Program:

- Offers hands-on training to learn the automotive fundamentals for GM vehicles;
- Provides tools, course materials, and the opportunity to Earn While You Learn as students are also employed as dealer technicians while completing the program;
- Gives students experience needed to prepare for the Automotive Service Excellence exam; and
- Provides scholarships and tuition assistance available to those who qualify.

Additional Information

All automotive technology programs at San Jacinto College are accredited through ASE Education Foundation.

Career Opportunities

The GM ASEP prepares students for careers in dealerships as:

- Service technicians;
- Parts counter persons;
- Service writers;
- Car salespeople; and
- Service managers.
