

# AUTO TECH, MOPAR CAREER AUTOMOTIVE PROGRAM (CAP), ASSOCIATE OF APPLIED SCIENCE

---

program and/or may delay the student's graduation date. San Jacinto College does not process exemptions, and students should address potential vaccination exemptions directly with the clinical/external learning site.

## Information

The Mopar College Automotive Program (CAP) streamlines the path to becoming a highly trained automotive technician to less than two years. In Mopar CAP students alternate between San Jacinto College, a Mopar CAP College, and hands-on work experience at a sponsoring dealership. Mopar CAP instructors are Mopar Group LLC trained and in touch with the latest automotive trends. Students will learn how to identify, analyze, and solve complex automotive problems. Theory and practical application come together as students spend time working on actual customer vehicles. Mopar Group LLC requires Mopar CAP instructors to have the latest high-tech training available. Mopar CAP Colleges are ready to provide the most current training available in the industry. Mopar CAP students complete between 80-100 percent of the Mopar training required to become a Mopar, Jeep, and Ram certified technician.

Mopar Group LLC donates new vehicles to its Mopar CAP Colleges. This ensures that students are training on the latest vehicle technology. All Mopar CAP programs, including San Jacinto College, are accredited by the National Automotive Technicians Education Foundation (NATEF). This accreditation ensures that this training will meet or exceed industry standards. All Mopar CAP instructors must be certified by the National Institute for Automotive Service Excellence (ASE) before they are allowed to teach in any Mopar CAP classroom. Students interested in the Mopar CAP program are required to meet with the CAP coordinator or Department Chair before registering for automotive classes.

Students enrolling into San Jacinto College programs with external learning experiences (i.e., clinical, practicum, externship, cooperative, etc.) will be required to comply with the immunization requirements and policies of the clinical/external learning sites to engage in all clinical/external learning experiences. Vaccination requirements at clinical/external learning sites are implemented pursuant to the independent authority of such facilities and are not mandated by San Jacinto College. Failure to meet the immunization requirements mandated by clinical/external learning sites may limit a student's ability to complete the
