

CHILD DEVELOPMENT/EARLY CHILDHOOD EDUCATION, ASSOCIATE OF APPLIED SCIENCE

CDEC and TECA Student

The 80th Texas Legislature passed a law, Senate Bill 758, that as of September 1, 2007, requires a Federal Bureau of Investigation (FBI) fingerprint check for anyone who is currently required to have a background check in a child care center. This includes any person(s), including volunteers, who are counted in the child/caregiver ratio. Child care center employees/volunteers will have to have the background fingerprints once every two (2) years. Similar legislation, Senate Bill 9, passed setting 2011 as the deadline for public school districts to be in compliance. FBI fingerprinting allows the state to check an individual's criminal record in 50 states, rather than just checking for a record within the state of Texas, which is all that the current system allows. Additionally, it addresses concerns with individuals using fake names and social security numbers.

No CEDC or TECA student can be in any one location more than two (2) days a month, in which case they would not be a "frequent" in-contact person in the classroom. Our experience indicates that the area school districts are implementing criminal background checks in a variety of ways. A fee is required but may vary depending upon the center, program, and school district. Based upon this information, it is the student's responsibility as a future teacher of children in the state of Texas to understand and comply with the requirements of each institution in which they may observe and/or intern.

In accordance with Texas House Bill 1508, the College informs all students in this program who may have a criminal background that a criminal history could keep graduates from being licensed by the state of Texas. Students with any questions about their background and licensure may speak with the Department Chair.
