

CHILD DEVELOPMENT/EARLY CHILDHOOD EDUCATION, ASSOCIATE OF APPLIED SCIENCE

Information

The College designed the Child Development/Early Childhood Education (CDEC) Associate of Applied Science (AAS) degree curriculum to develop basic skills, attitudes, and competencies necessary for personnel to provide high-quality care and early education in preschools and child care centers.

Students enrolling into San Jacinto College programs with external learning experiences (i.e., clinical, practicum, externship, cooperative, etc.) will be required to comply with the immunization requirements and policies of the clinical/external learning sites to engage in all clinical/external learning experiences. Vaccination requirements at clinical/external learning sites are implemented pursuant to the independent authority of such facilities and are not mandated by San Jacinto College. Failure to meet the immunization requirements mandated by clinical/external learning sites may limit a student's ability to complete the program and/or may delay the student's graduation date. San Jacinto College does not process exemptions, and students should address potential vaccination exemptions directly with the clinical/external learning site.
