

ENGINEERING, ASSOCIATE OF SCIENCE IN ENGINEERING

The Associate of Science in Engineering (ASE) is a collegiate degree approved by the Texas Higher Education Coordinating Board (THECB) consisting of lower-division courses intended for transfer to baccalaureate programs that lead to an engineering degree. The ASE, as defined by THECB, is fully transferrable to Texas public universities that participate in the *Tuning In Texas* articulation agreement (transfer compact).

The College recommends students seek the advice of an educational planner and an engineering faculty member or Department Chair. Students who complete the ASE will be required to meet any and all entrance requirements of the receiving institution, including grade point averages and/or testing requirements.
