

NATURAL SCIENCE, ASSOCIATE OF SCIENCE

Program Information

A Natural Science Associate of Science (AS) degree opens doors to rewarding careers. San Jacinto College offers programs in biology, chemistry, geology, and physics that place emphasis on making observations, evaluating evidence, and solving problems. Science pathways are designed to prepare you for four-year degree programs leading to careers in fields such as medicine, veterinary science, dentistry, energy, forensics, environmental science, pharmacy, research and development, consulting, teaching, hydrology, space science, meteorology, quality control, toxicology, genetics, and many other disciplines.

Earning Potential

Students pursuing a bachelor's or master's degree pathway in Natural Science will be prepared for careers as:¹

- Biochemist and Biophysicist: \$99,382
- Chemist: \$111,217
- Epidemiologist: \$84,185
- Geoscientist: \$160,050
- Hydrologist: \$94,872
- Microbiologist: \$67,006
- Physicist: \$190,682
- Zoologist and Wildlife Biologist: \$64,333

Students who earn a Natural Science AS degree can have positions such as:¹

- Chemical Technician: \$82,258
- Clinical Lab Technologist and Technician: \$57,939
- Environmental Science Technician: \$50,747
- Forensic Science Technician: \$67,197

Information

The Associate of Science (AS) degree is designed for students who plan to transfer to a four-year or upper-level college or university and major in mathematics, one of the sciences, engineering, or computer science. For more information, students may refer to the Core Curriculum (<https://publications.sanjac.edu/general-information/educational-programs/basics-core-curriculum-general-education-outcomes/>) section of the catalog. The AS degree differs from an Associate of Arts (AA) degree in the amount or level of mathematics and science required for degree completion. The College requires a minimum of 12 hours of mathematics, 12 hours of science, or 12 hours of computer sciences beyond the 42-hour core requirement for the degree.

The Natural Science AS degree is designed for students who either plan to transfer to a four-year or upper-level college or university and major in biology, biotechnology, chemistry, environmental science, geology, physics, or a related field or for students who plan to obtain an entry-level position in related fields. The Natural Science AS degree requires 42 hours of Core Curriculum (<https://publications.sanjac.edu/general-information/educational-programs/basics-core-curriculum-general-education-outcomes/>) and 18 transfer hours with at least 12 semester credit hours in any science courses with the exceptions of:

- BIOL 1308 Biology for Non-Science Majors I (lecture)/BIOL 1108 Biology for Non-Science Majors I (lab);
- BIOL 1309 Biology for Non-Science Majors II (lecture)/BIOL 1109 Biology for Non-Science Majors II (lab);
- CHEM 1305 Introductory Chemistry I (lecture)/CHEM 1105 Introductory Chemistry I (lab); and
- GEOL 1301 Earth Sciences for Non-Science Majors I (lecture)/GEOL 1101 Earth Sciences for Non-Science Majors I (lab).

The College recommends these courses for the AA degree. Other exceptions include BIOL 2404 Introduction to Anatomy and Physiology (lecture & lab) that the College recommends for certain Associate of Applied Science (AAS) degrees and BIOL 1322 Nutrition and Diet Therapy that the College recommends for a Bachelor of Science in Nursing (BSN) degree. Students must complete at least one of the following science courses for the Natural Science AS degree:

- BIOL 1307 Biology for Science Majors II (lecture)/BIOL 1107 Biology for Science Majors II (lab);
- CHEM 1311 General Chemistry I (lecture)/CHEM 1111 General Chemistry I (lab);
- CHEM 2325 Organic Chemistry II (lecture)/CHEM 2125 Organic Chemistry II (lab);
- GEOL 1304 Historical Geology (lecture)/GEOL 1104 Historical Geology (lab); or
- PHYS 2326 University Physics II (lecture)/PHYS 2126 University Physics II (lab).

If you were pursuing a Life Sciences AS or Physical Sciences AS prior to fall 2021, go to the Previous Catalogs (<https://publications.sanjac.edu/previous-catalogs/>) link to find the correct version.

Plan of Study (Degree Plan)

2NATSCI

Students who know the university to which they want to transfer to pursue a related bachelor's degree should use the appropriate transfer plan for the university listed on the Transfer Plans (MAPS) page from the tab above.

This plan of study is intended only for students who do not yet know the university to which they want to transfer or for students who do not currently plan to transfer after earning their associate degree.

Total Credits**42**

¹ MATH 1324 Mathematics for Business and Social Sciences, MATH 1325 Calculus for Business and Social Sciences, and MATH 1332 Contemporary Mathematics (Quantitative Reasoning) do not meet the requirements for students pursuing mathematics or science.

² Students must be simultaneously co-enrolled in the co-requisite science lab.

³ BIOL 1308 Biology for Non-Science Majors I (lecture), BIOL 1309 Biology for Non-Science Majors II (lecture) and CHEM 1305 Introductory Chemistry I (lecture), and GEOL 1301 Earth Sciences for Non-Science Majors I (lecture) do not meet the requirements for science majors.

⁴ BIOL 2301 Anatomy and Physiology I (Lecture) and BIOL 2302 Anatomy and Physiology II (Lecture) are designed for allied health majors and not for academic transfer as science majors.

⁵ Students who have taken GOVT 2301 or GOVT 2302, but not both, should check with a Program Advisor on how to complete the 6 SCH.

If a student successfully completes San Jacinto College's 42-hour Core Curriculum, that block of courses must be substituted for the receiving institution's Core Curriculum. The receiving institution may not require a student to take additional Core Curriculum courses to meet the requirements of the Core. Students who transfer without completing the Core Curriculum shall receive academic credit in the Core Curriculum of the receiving institution for each of the courses the student has successfully completed in the San Jacinto College Core Curriculum. Students should plan Core Curriculum courses that would meet baccalaureate degree requirements at the four-year institution.

If you do not see your transfer school, please follow the Plan of Study. For more information, contact an Admissions advisor. Please speak to an advisor at San Jacinto College and the transfer institution to ensure this Transfer Plan is accurate and complete. For a list of all MAPs, students may go to Transfer Plans A-Z (<https://publications.sanjac.edu/transfer-plan-maps/>). Students may filter for specific universities, disciplines, or degrees, and print individual MAPs.
