

GENERAL STUDIES, ASSOCIATE OF ARTS

Overview

The Associate of Arts in General Studies (AA) is a collegiate degree program approved by the Texas Higher Education Coordinating Board (THECB) consisting of lower-division courses intended for transfer to a baccalaureate program that best fits students' preferred academic majors or career paths for their own personality, interests, and goals.

The General Studies degree, as defined by THECB, is fully transferable to all Texas public universities. Because the General Studies degree fulfills the 60 hours of Core Curriculum classes and open electives, all Texas public universities must accept the General Studies curricula if they offer an applicable baccalaureate degree.

Students who complete the General Studies degree at San Jacinto College will be required to meet any and all entrance requirements of the receiving university, including grade point averages and/or testing requirements.

Information

Four-year and upper-level colleges and universities offer majors within the baccalaureate degree. San Jacinto College offers many courses in the transfer path that would meet the requirements of a major. Students may prepare to transfer to a particular program at an upper-level institution by either:

- Completing the 42-semester credit hour (SCH) core curriculum and an 18-hour transfer path, or

- Selecting courses as specified in the transfer plans developed by San Jacinto College in cooperation with upper-level institutions to which students transfer.

Those plans, which are available in the Center for Advising, Career, and Transfer office on each campus as well as on the Transfer Plans tab for each Associate of Arts (AA) program page, are designed to prepare students to transfer to a particular four-year or upper-level college or university by specifying the courses required to complete the first two years of a baccalaureate degree in a particular major. Students choosing to pursue an AA degree should select from among the General Studies, Social and Behavioral Sciences, Business Administration, Fine Arts, or Communications programs.

¹ MATH 1324 Mathematics for Business and Social Sciences, MATH 1325 Calculus for Business and Social Sciences, and MATH 1332 Contemporary Mathematics (Quantitative Reasoning) do not meet the requirements for students pursuing mathematics or science.

² Students must be simultaneously co-enrolled in the co-requisite science lab.

³ BIOL 1308 Biology for Non-Science Majors I (lecture), BIOL 1309 Biology for Non-Science Majors II (lecture) and CHEM 1305 Introductory Chemistry I (lecture), and GEOL 1301 Earth Sciences for Non-Science Majors I (lecture) do not meet the requirements for science majors.

⁴ BIOL 2301 Anatomy and Physiology I (Lecture) and BIOL 2302 Anatomy and Physiology II (Lecture) are designed for allied health majors and not for academic transfer as science majors.

⁵ Students who have taken GOVT 2301 or GOVT 2302, but not both, should check with an educational planner on how to complete the 6 SCH.

If a student successfully completes San Jacinto College's 42-hour Core Curriculum, that block of courses must be substituted for the receiving institution's Core Curriculum. The receiving institution may not require a student to take additional Core Curriculum courses to meet the requirements of the Core. Students who transfer without completing the Core Curriculum shall receive academic credit in the Core Curriculum of the receiving institution for each of the courses the student has successfully completed in the San Jacinto College Core Curriculum. Students should plan Core Curriculum courses that would meet baccalaureate degree requirements at the four-year institution.
