

TESTING

Campus Testing Centers

Campus Testing Centers offer the Accuplacer Texas Success Initiative Assessment (TSIA); the Accuplacer English as a Second Language (ESL); the College-level Examination Program (CLEP); the Texas high school equivalency exams: the General Educational Development (GED) and the High School Equivalency Test (HiSET); the Health Education Systems Incorporated (HESI) exam; the upper level math placement on South and North campus only; and make-up and accessibility coursework exams. Students may contact the nearest Testing Center for dates and times.

Taking the TSI Assessment

San Jacinto College uses the TSI Assessment to determine college readiness levels in mathematics, reading, and writing for non-exempt students. The test scores will determine if students are ready for college-level courses or need college preparatory courses. Before attending new student orientation (NSO) and enrolling in courses, students need to take this exam. Testing takes place at the student's campus of choice and can usually be completed in three to four hours. Students need to complete the TSIA Pre-Assessment Activity before going to Admissions for a Testing Request Form.

Texas Certificate of High School Equivalency (TxCHSE)

San Jacinto College currently administers the GED and HiSET high school equivalency exams for the Texas Certificate of High School Equivalency.

For more information about high school equivalency requirements, students may visit <https://tea.texas.gov/TxCHSE.html>.

Credit by Examination

Students must mail the official copy of Advanced Placement (AP), College Level Examination Program (CLEP), and International Baccalaureate (IB) results to Records Management at the South campus for processing. A student must earn at least three credit hours of course work at San Jacinto College before the College will post transfer credit to the student's transcript from these examination results.
