

GRADUATION AND COMPLETION RATES

In compliance with federal law, San Jacinto College publishes an annual report of completion rates for full-time undergraduate students seeking a bachelor's (BSN) degree, an associate degree, a Certificate of Technology, or transfer to a four-year institution. Federal law requires institutions to produce this report and make it readily available to current and prospective students who are enrolling or entering into a financial obligation with or through the College. A copy of the current or past reports may be obtained from the Office of the Provost on each campus or from the Marketing Department (SJC.TPIARequest@sjcd.edu).
